Overview

Visual Product Configurator Upload Image Addon allows the customer to upload one or multiple pictures on his custom product which will show up on the preview area.

II. Installations

A. Requirements

1. WordPress (minimum version: 3.6)
2. Woocommerce (minimum version: 2.4)
3. Woocommerce Visual Product Configurator (minimum version: 2.3.8)

B. Installation process

The zip file downloaded from CodeCanyon contains:

- The Visual Product Configurator Upload Image Addon user manual (User Manual.pdf)
- The Visual Product Configurator Upload Image Addon Installable plugin zip file (Visual Product Configurator Upload Image Addon.zip)

1. First, extract the archive in a folder of your choice and let's start the installation.
2. Go to your WordPress Admin Panel and click on Plugins > Add New to access the plugins installation screen
3. Then click on the upload link to access the plugin upload page
4. Click on the Choose file button and select the plugin installable zip archive named visual-product-configurator-upload-file-addon.zip in the folder extracted in the first step.
5. Click on the Install Now button to run the installation.
6. Once the plugin is successfully installed, please click on the Activate Plugin link to activate the plugin.

In order to use, “**upload image**” feature, you need to do the following actions:

- Go to your existing configuration
- Under the existing configuration click on “**add component**”
- Add the “**Name**”
- Set an “**icon**” image
- Under component “**Behavior**” select the “**single view upload**” option
- Click on “**Manage options**” and fill in the boxes
- Add name, price, image positions, width, height

- NB: it is mandatory to add the “NAME” for your image upload option to be displayed perfectly on the configuration page.
- Finally save your configuration
